DARK ELECTRO SYNTHPOP

"Pawn Pawn combines rhythmic energy with captivating melody and deep, dark soundscapes. The tracks are driven between synthpop beats and subtle industrial pop elements that produce a strong, atmospheric contrast ... characterized by catchy melodies, driving synth lines and a detailed production."

Each track unfolds its own dynamics, but remains true to its dark, electronic roots. From the pulsating gloom of 'Trick or Treat' to the hypnotic-seductive 'Tell You With My Eyes' to the explosive 'Jealousy looks Good On Me,' which is reminiscent of the aggressive industrial pop of the 90s, the EP presents itself as sonically multifaceted and surprisingly variable."

[Sonic Seducer Magazine, 2025]

A "high-octane fusion of '90s industrial-pop that balances chaotic aggression with razor-sharp melodic hooks."

[Noise Beneath the Snow, 2025]
